May 30, 2018

Dear Parents and Community Members:

We are pleased to present our Annual Education Report (AER) which provides key information on the 2016-2017 educational progress for Lakeside Elementary School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact me for assistance at sthelen@egrps.org.

The AER data is available for you to review electronically by visiting the following website [link](#) or you may review a copy in the school main office. This cover letter is available at [link](#).

For the 2016-2017 school year, schools were identified using new definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that has at least one underperforming student subgroup. An Additional Targeted Support (ATS) school is one that has three or more underperforming student subgroups. A Comprehensive Support and Improvement (CSI) school is one whose performance is in the lowest 5% of all schools in the state. Some schools are not identified with any of these labels. In these cases, no label is given. Our school was not given a label.

PARENT-TEACHER CONFERENCES

We are proud to report for the 2017-2018 school year, 100% of Lakeside's 438 students were represented by parents at fall and spring conferences. For the 2016-2017 school year, 100% of our 450 students were represented by parents.

SCHOOL PLACEMENT

Placement in any of our three elementary buildings is based on attendance area, availability, and class size. At the secondary level, we have one middle school for students in grades 6-8 and one high school for students in grades 9-12.

CORE CURRICULUM

As part of our Strategic Plan, East Grand Rapids Public Schools' teachers, parents, administrators, and community members work together to align all curriculum areas with state and national standards. The Common Core State Standards have been embedded into our K-12 ELA, K-12 mathematics, and 6-12 social studies and science curricula. Our goal is to develop an integrated framework for 21st century student outcomes that encompasses curriculum, instruction, and assessment, which ultimately affect student learning. All curriculum documents are available on our website: www.egrps.org/District/Curriculum/index.html.

Through collaboration at every level, East Grand Rapids stands out as a model of public school success and we have received many state and national accolades, honors, and awards in our long history. We view these achievements as a challenge as we endeavor to continually improve our curriculum and instructional practices to meet the needs of all students.

SCHOOL IMPROVEMENT

Lakeside Elementary School's entire professional staff is involved in the goal setting process. Our goals for 2016-2017 were developed through the collaborative involvement of staff and based primarily on assessments from our core curriculum areas of English language arts, math, social studies, and world languages, as well as information from the 2016 M-STEP report. Additional sources of assessment include NWEA Measures of Academic Progress (MAP), Fountas and Pinnell Benchmark Assessment System, district grade level assessments, and grade level core curriculum assessments.

Our teachers collaborate regularly at building and district levels, and our measurable data indicates a high level of student academic achievement. Staff training and professional learning continue to be areas of focus for professional staff as we research the current best teaching practices for

differentiated instruction to ensure academic success for all our students.

MATHEMATICS

With the goal of improving students' abilities to solve complex problems as well as basic math skills, we use our aligned curriculum, which is supported by GO Math! resources, and the IXL computer program to strengthen our students' computational skills. Connecting math concepts to real life experiences provides a foundation of understanding for our children and results in high academic achievement.

ENGLISH LANGUAGE ARTS

With the ultimate goal of *educating and inspiring students to navigate successfully in a global community*, the development of accomplished communicators is a critical skill for 21st century learners. Consequently, Lakeside Elementary students develop proficiency in all aspects of communication: speaking, listening, reading, and

writing. While our students demonstrate strong abilities in the area of reading narrative information and answering basic questions, it becomes more challenging when they are asked to gather information from charts and graphs and construct a written response. Our goal is to provide more opportunities for students to be presented with a variety of text materials and be able to successfully glean essential information. With high quality materials and utilizing a balanced literacy approach to teaching, students will achieve all goals.

DIFFERENTIATED LESSONS

Several years ago the East Grand Rapids Schools began training teachers in methods and strategies to differentiate lessons for students. The goal is to meet the academic needs of all students while tapping into their individual strengths and interests.

Our goal is to continue to develop differentiated lessons, units, and assessments. This will not only enhance the quality of education for our gifted students, but for all students needing a different method in order to achieve success. Planning with grade level teams allows teachers to engage in professional conversations on the topic of differentiation, and to share ideas and lessons that demonstrate differentiation.

SPECIAL EDUCATION

Our district provides educational interventions, opportunities, and support for students with special needs. Special Education services include early childhood, self-contained, resource programs, with occupational therapy, physical therapy, psychological, school social work, speech and language, and teacher consultant services. The Individualized Education Program (IEP) Team, including administrators, parents/guardians, teachers, and students when appropriate, meets at least once per year to decide what is required for each eligible student to make educational progress.

Services are provided for our preschool age students, ages three to five, through a variety of options. We evaluate our preschool age children at our Early Childhood Assessment Center. A continuum of services are provided, based on

student need, including Early Childhood Home and Community, Early Childhood Special Education Classroom, and related itinerant services.

Resource program support is provided in each of our elementary school buildings. East Grand Rapids Middle and High Schools also provide resource program services for eligible students. By their sixteenth birthday, all East Grand Rapids special education students plan transition activities to reach their post-secondary vision.

Our district also offers self-contained classrooms for students with moderate cognitive impairments at the middle school and high school buildings. Additionally, through cooperative agreements with other school districts, East Grand Rapids Public Schools provide programs and services for our youngest students, from birth to age three, and for our students who require more specialized programs.

For additional information, please contact the Special Education Department located in the James E. Morse Administration Center at Woodcliff, or refer to the Special Education section on our website: www.egrps.org/District/Special-Education/index.html.

Lakeside Elementary School

~ Where Kindness Counts ~

The staff of Lakeside Elementary School believes that all children can and will learn most effectively in a positive, nurturing environment where respectful relationships are essential to our foundation.

We understand that teaching and learning require a state of readiness and a sense of timing woven with strategic direct instruction. Students need to be exposed to a range of teaching and learning styles within a differentiated lesson in order to maximize their learning opportunities.

With high expectations for academic achievement, Lakeside Elementary's teachers and parents collaborate to ensure success for all students. We hope to hear you and your children echo our mantra, "Lakeside Elementary, Where Kindness Counts."

Sincerely,

Stephanie A. Thelen
Principal
