

Dear EGRPS Families,

This is a follow up to the Board of Education meeting held on Monday, January 26, 2015. The Board of Education received an Executive Summary and presentation by Dr. Cynthia Smith, an independent consultant with over 35 years of professional experiences in special education, regarding a review conducted on our Special Education Programs and Services. The administration and Board of Education took seriously the concerns shared by some parents last school year and, as a result, requested that a review be conducted by an outside consultant. The [Executive Summary](#) and the [PowerPoint](#) presented to the board are included in the Special Education Communications listed below.

With gratitude,

Sara Magaña Shubel, Ph.D.
Superintendent
